PNEUMATIC LEVER TYPE TUBE CUTTER

The design of these tube cutter are such that they cut ferrous and non ferrous tubes quickly and effortlessly. A constant feed rate of the cutting bit is achieved by combining high torque motors with our lever assist unit. It results in higher productivity and an extended life of the cutter.

We also offer similar machines for tube facing and seal weld removal tools.

Features :

- Fast tool change from one diameter tool to another.
- Tool bit is easily changed without disassembling the tool.
- Lightweight and durable.

TECHNICAL DETAILS:

Model No.		PLTC - 400	PLTC - 600	PLTC - 1250
Free Speed	RPM	400	600	1250
Maximum Torque	Nm	36,00	21,81	12,2
	in.Lbs	318	193	108
Weight	Kg	4,76	4,76	4,76
	Lbs	10,5	10,5	10,5
Length	mm	311	311	311
	inch	12-1/4	12-1/4	12-1/4
Air Consumption	l/min	1700	1700	1700
	cfm	60	60	60
Tube Material Suited For		Carbon Steel	Brass	Copper
Suited For Tube O.D.		Upto 1"
